Welcome to the latest edition of *Solutions*, the regular news publication for CCI customers around the world. First of all, I would like to say a big THANK YOU on behalf of all CCI employees for choosing CCI as your business partner and for your continued support.

Previously we announced a new regional sales and service structure to position CCI to exceed customers' expectations and to more efficiently provide CCI's brand of Severe Service Solutions. Each region of the world — Americas; Europe, Middle East, Africa and India; and, Asia-Pacific — will build an integrated commercial organization representing new project sales, customer service, repairs and inside technical support all under a unified regional leadership team.

We have put into place a new regionally based sales and service team to position critical resources closer to our markets and to strengthen CCI's commitment to superior customer focus.

I am delighted to announce the worldwide sales and marketing leadership team:

James Pickren has james.pickren@ccivalve.com joined us as Senior Vice President of Sales, Marketing, and Service Worldwide, and acting Vice President of Sales Americas.

James is new to CCI and joins the company from Johns Manville, a Berkshire Hathaway company. He has over 17 years of progressive

sales, marketing, and manufacturing experience in commercial and industrial markets with companies such as DuPont, Allied Signal, and Honeywell.

Sergio Sartoni is ssartoni@ccivalve.com

Vice President of Sales and Service for Europe, Middle East, Africa and India. Sergio has been with CCI for over two years. He came to the organization with more than 15 years of experience with General Electric, where he focused on Asia and the Middle East. He has a strong background in sales and manufacturing and is an expert in the Oil and Gas markets.

P.A. Lee serves as palee@ccivalve.com

Vice President and General Manager for Asia Pacific. P.A. came to CCI seven months ago after 19 years with Tyco, where he served as the Managing Director for Greater China, responsible for sales, marketing, and manufacturing operation. Before Tyco, he was with Masoneilan for four years. P.A. brings a total of 27 years of valve industry experience to his new position.

We thank you for your continued support.

Ian W. Whiting, President
